Full Stack Web Development Fellow — JavaScript Programmer — UI UX Designer

PROJECTS

Nov 2020 – Dec 2020

Munch Map

A restaurant finding app. Users have the option to see 50 restaurants on any given cuisine search with 5 different search filter choices, while also having the option to view them on a map via the Google Maps API.

— HTML, CSS, Bootstrap, JavaScript, Google Maps API

View Project: github.com/Avixph/-Munch-Map-Redux ↗

Sep 2020 – present

Let.Me.Live

Let.Me.Live will be an anonymous reporting app aiming to empower underserved tenants of New York City who are subject to harassment. We will also connect our users to various resources, such as legal assistance.

— HTML, CSS, JavaScript, React, Node, Express, MongoDB

View Project: In-Progress

EDUCATION

Sep 2020 – present

Full Stack Web Development, The Knowledge House

I will be learning to build full-stack web and mobile apps using HTML, CSS, JavaScript, React, and back-end technologies.

Sep 2019 – present

Digital Marketing (AS), Borough of Manhattan Community College

Microsoft Office | Google Sheets | Adobe Photoshop | Adobe Premiere | Social Media Marketing | Figma | Canva | Writing

PROFESSIONAL EXPERIENCE

Apr 2019 – Jun 2019

Library Page, NYPL | West Farms Branch

- Brought organization to the library by shelving 500+ books to their corresponding shelves.
- Gained 200+ petition signatures from New Yorkers which resulted in securing the library against budget cuts.
- Assisted librarian with children's events, which drove engagement from children and parents.

Dec 2017 – Feb 2018

Data Entry Clerk, Ability Builders For Children LLC

- Organized client data by extracting information inside 300+ uncategorized folders to an online database.
- Helped bring more space into the office setting by sorting 70+ heavy boxes to a storage area.
- Secured optimal budget deals by negotiating with moving trucks and warehouse owners.
